PUBLIC SERVICE ANNOUNCEMENT

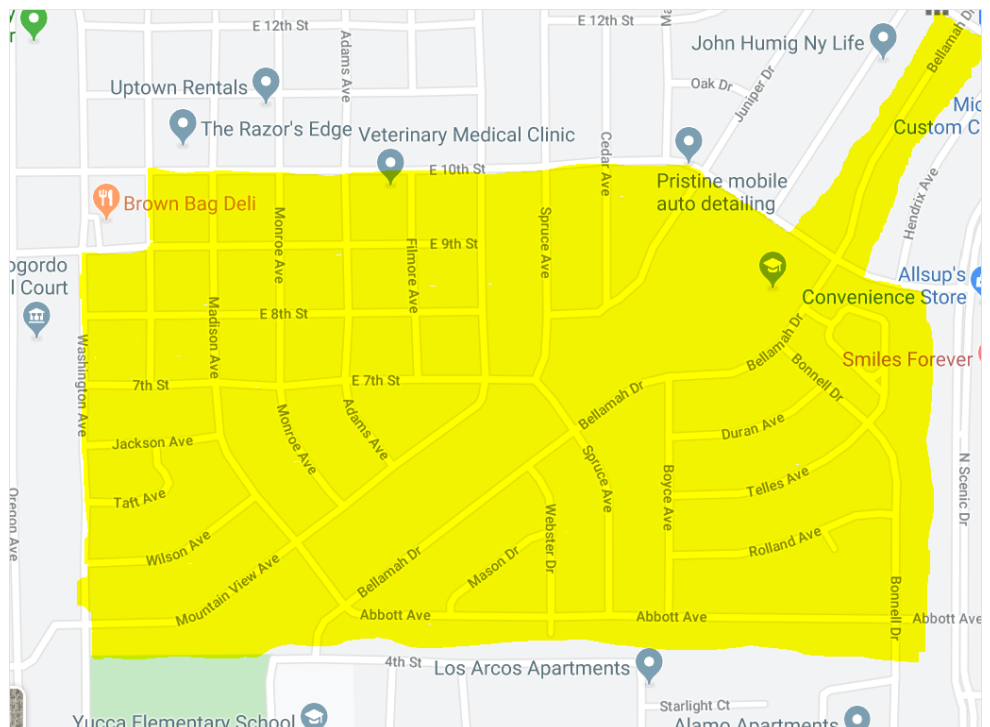

CITY OF ALAMOGORDO

Scheduled Temporary Water Outage for Improvement Project

Alamogordo, NM Monday, December 23, 2019 As crews continue to prepare for the major cluster valve replacement project in the area shown below, a dry run will be conducted on Monday, December, 30, 2019. Water will be turned off in the highlighted area beginning at 8am and could last until approximately 3pm. Crews are hoping to finish testing much sooner than 3pm, but don't always know what they will encounter that could delay the process. Please continue to use caution as you travel through this area. With all the prior preparation city crews and the contractor are planning for a smooth installation of all the new valves on January 6th (as mentioned in a prior PSA). The new valves will be installed to improve maintenance by creating additional isolation points.

Crew members will work as quickly and safely as possible to restore water flow, and we thank you for your patience and cooperation as we work to improve water infrastructure in our community.
