

# CERTIFIED BACKFLOW TESTERS & REPAIRMAN APPLICATION

Submit completed applications along with copies of all certifications to

[waterquality@ci.alamogordo.nm.us](mailto:waterquality@ci.alamogordo.nm.us)

To initially certify as a backflow assembly tester, the applicant shall attend a 40-hour training course that has been approved by the Public Works Department and the person must successfully complete the written and performance examinations administered as part of the approved training course.

An applicant who is employed by the appropriate licensed contractor in accordance with the New Mexico Construction Industries Licensing Act, attends, and successfully completes the approved training course may be certified as a backflow prevention assembly repairman.

To certify as a tester or repairman, the applicant or company employing the applicant must have a current business license with the City.
